Hannover の Petersen 先生より

Dear colleagues and friends

To continue the tradition of interdisciplinary biliary atresia congresses, the organizing committee of the second meeting on biliary atresia and related diseases (BARD) likes to inform you that the next conference is scheduled for July 10th to 11th, 2020 in Bruges, Belgium. BARD-Bruges-2020 is organized as a joint venture together with the British Association of Paediatric Surgeons and in close cooperation with the European Reference network for rare liver diseases ERN-rare-liver (<https://www.rare-liver.eu/>).

The topics of BARD-Bruges-2020 will structurally be orientated to the Berlin congress in 2014\*. Beside overview lectures, which will be given by members of the scientific faculty, newly submitted studies and papers will be discussed during extended podiums debates and will also be available as electronic posters. Additionally, consensus drafts on crucial diagnostic and therapeutic issues will be presented and discussed. Please, take a glance on the draft program, which will be continuously updated: [http://www.bard-online.com/ice/incoming/www.bard-](http://www.bard-online.com/ice/incoming/www.bard-online.com/extarticle/asset_1/BARD_Bruges_Flyer_faculty_draft_program.pdf)

[online.com/extarticle/asset\\_1/BARD\\_Bruges\\_Flyer\\_faculty\\_draft\\_program.pdf](http://online.com/extarticle/asset_1/BARD_Bruges_Flyer_faculty_draft_program.pdf).

We, the organizing committee, would be delighted if you follow our invitation to Bruges. The faculty is equally divided between pediatric surgeons and hepatologists. Please, help us to keep this balanced distribution stable, register to the meeting and send your abstracts.

Deadline for abstract submission is Monday 27th January 2020:  
<https://congress.baps.org.uk/scientific-programme/bard-abstract-submission-2020/>

For more information, please visit: <https://congress.baps.org.uk/location/> and <http://www.bard-online.com/>

We're looking forward to meeting you in Bruges

# BARD-BRUGES-2020

2<sup>nd</sup> International Congress on Biliary Atresia and Related Diseases

It is a great pleasure to announce the 2<sup>nd</sup> International Congress on Biliary Atresia and Related Diseases (BARD).

This will include state-of-the-art lectures by an international faculty and a full multidisciplinary scientific program

---

## Unique features and reasons to attend

- Joint venture with the 67th Annual Scientific BAPS Meeting, 8<sup>th</sup> – 10<sup>th</sup> July
- Beyond biliary atresia - inclusion of topics within the overall topic of neonatal cholestasis
- Multidisciplinary format to attract basic and clinical researchers, pediatric and adult hepatologists/gastroenterologists and hepatobiliary and transplant surgeons
- Remaining healthy with biliary atresia and transition to adult care
- ERN-rare-liver – European competence networks for the care of patients with rare liver diseases
- Electronic posters
- 2<sup>nd</sup> Erwin-Röver-Award for “Best Presentation”

**The interdisciplinary organizing board looks forward to meeting you in Bruges**
