本学会公式英文誌の *Pediatric Surgery International* の Editors-in-Chief である Drs. Prem Puri と Agostino Pierro から ***Pediatric Surgery International* の impact factor が 1.397 から 1.668 へと上昇した**とのお知らせが下記のようにありました。

Dear Editorial Consultants of *Pediatric Surgery International*,

Journal Citation Reports ( JCR ) announced this morning the impact factor of various journals.

We are delighted to inform you that the impact factor of PESI is increased from the last year of 1.397 to 1.668.

Please see the attachment for comparison with the other pediatric surgical journals.

We would like to thank you most sincerely for all your help and support for the PESI.

This is the highest impact factor PESI has ever had and this would not have been possible without your help, particularly thorough and timely reviewing of manuscripts.

We kindly request you to encourage your colleagues and residents to submit both clinical and basic science articles to PESI.

Kind regards

Prem and Agostino

Prem Puri : Agostino Pierro

Editors-in-Chief

*Pediatric Surgery International*
